Embroidery It

Machine embroidery designs so you can be creative daily and live life beautifully

Supplies

- Medium to light weight tear-away stabilizer
- 2 pieces of vinyl cut 3" x 3"
- Tape – I use painters tape
- Ribbon – About 7"

Instructions:

1. Hoop stabilizer. Stitch the first color. This is your placement line.
2. Place one piece of vinyl over the placement line (tape in place if necessary) and stitch the next color. This tacks down the vinyl.
3. Stitch the alphabet letter in color of choice.
4. Remove hoop from machine but do NOT unhoop the design. Turn hoop over and tape second piece of vinyl to the back side of the hoop.
5. Return hoop to machine and stitch the eyelet and satin border.
6. Stitch the decorative stitch that is just inside the satin border. I made this the same color as the letter.
7. Remove from hoop and tear away the stabilizer.
8. Carefully poke a hole in the center of the eyelet and insert ribbon.

Create tags of anything you wish to identify. Think of luggage, backpacks, keys etc.

Enjoy, ~ Nancy
